Preface

This computer-generated serial and reverse pāda index for *Saddharmapuṇḍarīka* (= SP) is based on the edition by H. Kern and Bunyiu Nanjio, the *Bibliotheca Buddhica* X, St.-Petersbourg, 1908–1912 (= Kn).

Although there are some problems to be re-examined, Kn is the first critical edition of SP and has been a standard in the field until now. Indeed, it is a mixture of six Nepalese manuscripts (ms(s)) and Central Asia mss in Kashgar. There are many orthographical peculiarities in these recensions. Sometimes they differ in the order of chapters. But with regard to meaning and content they are not so different from each other.

The word index for Kn was published about twenty years ago (Y. Ejima, ed.: *Index to the Saddharmapuṇḍarīka-sūtra — Sanskrit, Tibetan, Chinese*, Fascicle I (1985), II (1986), III (1987), VI (1989), V (1988), VII (1989), VIII (1990), IX (1991), X (1992), XI (1993), Reiyukai, Tokyo). But we have not had a pāda index as yet, and so we publish this book.

Previous studies of SP have shown that there are approximately four recensions, one each handed down in four regions:

- (1) Nepalese mss (palm leaf [11th century], paper [18th–19th centuries] = Gilit mss)
- (2) Gilit mss [7th century]
- (3) Central Asia mss (old mss [5th–6th centuries], Kashgar = nearly Nepalese mss)
- (4) Afghanistan mss

Eight mss have been used in editing Kn:

- (1) A: No. 6, Royal Asiatic Society of Great Britain and Ireland, London, Paper.
- (2) B: Or. 2204, British Museum, London, Palm-leaf.
- (3) Ca: Add. 1683, Cambridge University Library, Cambridge, Paper.
- (4) Cb: Add. 1684, Cambridge University Library, Cambridge, Paper.
- (5) K: No. 414, Tokyo University Library, Tokyo, Paper.
- (6) W: In the possession of Mr. Watters, formerly British Consul in Formosa.
- (7) O: No. SI P/5, held in the Institute of the Peoples of Asia, USSR Academy of Science, Leningrad, Paper [Petrovskij ms, or Kashgar recension].
- (8) P: The lithographic text in Nāgarī, published by Ph. Ed. Foucaux in his work *Parabole de l'Enfant égaré* (Paris, 1854)

This index owes very much to the thoughtful and helpful comments and suggestions of Prof. Yumi Ousaka and Associate Prof. Sunao Kasamatsu at Sendai National Collage of Technology. I'm most grateful to Chuo Academic Research Institute for providing a favourable study environment.

And I want to express my deepest sympathy for the victims of the devastating Tohoku earthquake and tsunami on March 11 this year, and sincerely pray for reconstruction in the affected areas.
